

DG SET

with **STAINLESS STEEL
MULTISTAGE VERTICAL PUMP**

*the innovative
booster set*

THE INDUSTRY'S
**MOST
COMPACT**
PUMP SET

**BOOSTER SET
RANGE**

- up to 4 pumps
- up to 4 x 7,5 Kw
- up to 4 x 23 m³/h

large savings

- Transportation
- Installation
- Cost
- Day by day energy consumption
- Maintenance

DG FLOW

YOUR WATER UNDER CONTROL

HIGH EFFICIENCY PUMP UNIT

MOTORS High efficiency "IE2" motors
Three phase power supply

Assembled on a patent pending steel frame

MATERIALS

- Pump components ▶ **Stainless steel Aisi 304**
- Manifolds ▶ **Nikel plated brass**
- Ball valves ▶ **Steel**
- Check valves ▶ **Steel**
- Basement ▶ **Steel**

Designed, engineered and produced in ITALY

MAINTENANCE

Inspection and maintenance operation just require frontal access

INTEGRAL SENSORS

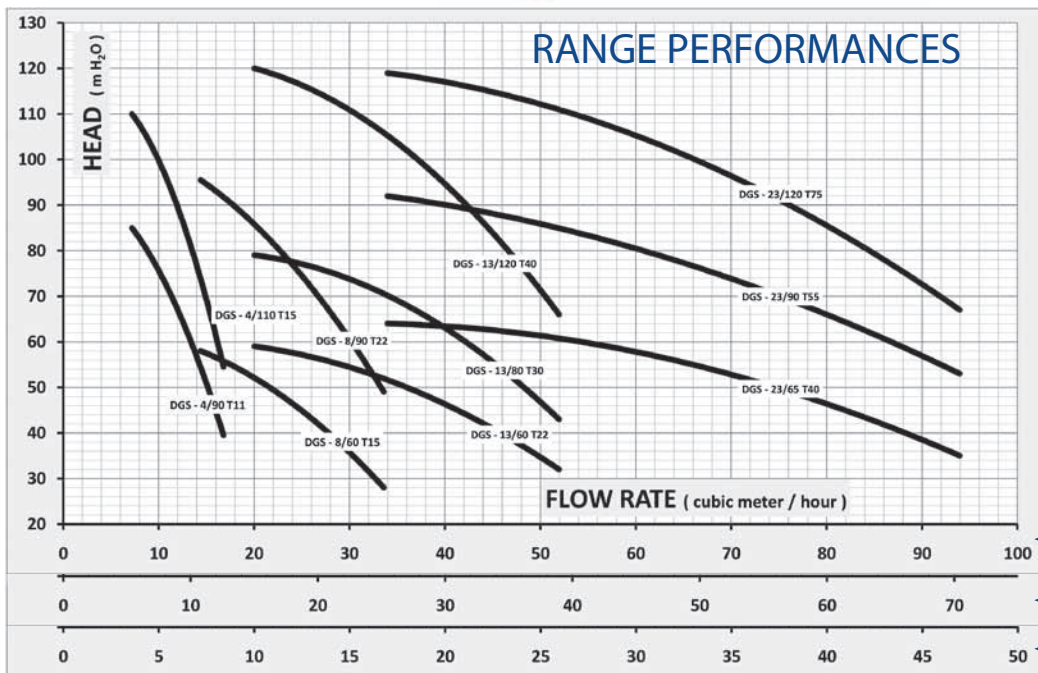

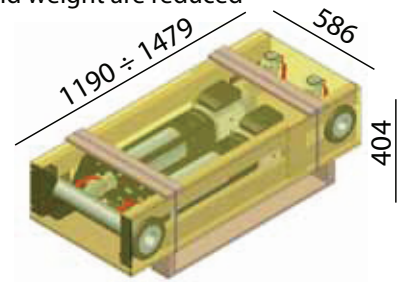

Sensors are integrated in the Patent Pending "TEEVALVE"
The only Low Losses Check Valve you can Inspect and Clean "In Situ"

- Pressure sensor 4-20 mA

- Flow Sensor (high sensibility) to avoid frequent starting and pressure fluctuation so common in variable speed system with "Pressure Sensor only" controller.

COMPACTNESS

Transport overall dimension and weight are reduced
